

HIGH-POWER PORTABLE DDS MULTI-BAND JAMMING SYSTEM

Model No. WF-VIP JAM8

WOLVESFLEET TECHNOLOGY CO., LIMITED | www.wolvesfleet.com

APPLICATION

Bomb disposal squads, VIP protection, Special Police (S.W.A.T), military security forces, bomb squads, anti-terror units, anti-drug units, border control units, checkpoint personnel, these types of law enforcement personnel who benefit greatly from the deployment of any of these best-in-class portable RF jamming solutions. They can conduct the law enforcement process more effectively to reduce the chance that the criminals leak the information.

TECHNICAL SPECIFICATION

Based on its modular design and configuration our digital jammer can be easily operated, upgraded, serviced, repaired and adapted to its required use.

Digital Jammer modules can be changed easily and quickly just as changing the mobile phone battery. Different jamming frequency bands can be configured as the customers required immediately.

| | 20-100MHz 50W | | |
|--------------------------------|---|--|--|
| | 27MHz, 35MHz, 41MHz, 72MHz toys and HM remote control | | |
| | 100-300MHz 50W | | |
| RF Frequency Band(MHz) | Low-power transmitters | | |
| | 300-500MHz 50W | | |
| | Walky-Talky, 315/433 Car remote control | | |
| | 800-1000MHz 50W | | |
| | Cellular CDMA,GSM | | |
| | 1800-2000MHz 50W | | |
| | DCS, Cellular 4G | | |
| | 2000-2200MHz 50W | | |
| | Cellular 3G | | |
| | 2400-2500MHz 20W | | |
| | WIFI, Bluetooth, WLAN | | |
| | 2500-2700MHz 40W | | |
| | Cellular 4G | | |
| Total RF Power | 360W | | |
| Jammer Module Number | 8 | | |
| Jamming Frequency Bands Number | more than 20 Bands | | |
| Cooling System | Systematic Smart Cooling System | | |
| System Protection | VSWR, Over-voltage, Over-current, | | |
| Jamming Source | Direct Digital Synthesize Technology | | |
| Remote Control | Full System Operation Control | | |
| Antenna Type | High Gain Omnidirectional Antennas | | |
| Number of Antenna | 8 | | |
| Battery Back Up Capacity | 50AH/24-28VDC | | |
| Modular Design | Each Jammer module with the antenna can be used as a single jamming | | |
| | All modules can be controlled individually . | | |
| Size | 63 x 49.2 x 35.2cm | | |
| Weight | about41.62kg | | |
| Operating Temperature Range | -35°C ~+80°C | | |
| Operating Humidity Range | Up to 80% | | |

MACHINE BODY

WF-VIP JAM8 adopts DDS technology, fully sweeping the jamming frequency bands so that it results in a more efficient jamming and bigger shielding coverage. Enclosured with American Mil-spec Case,dustproof,shockproof and drop-resistence.

Modular design makes easier maintainence. Damaged modular can be took off and changed easily. It will not interfere the other modules' normal working.

CHARACTERISTIC OF JAMMER MODULES

Each module is designed with three indication lights, to show Power, Run and Alarm (Antennae VSWR feedback status). Each module is with LCD display to indicate the working Antenna interface frequency, output power and etc. Each Module is designed with 232 Com Port and USB cable RS-232 interface to connected to the computer. Frequency bands and or Jut Frequency&Power Display power can be adjusted, and the working statue d n be Power LED monitored through this software. **Run LED** 232 Com Port and USB cable Alarm LED

REMOTE CONTROLLER

WF-VIP JAM8 is design with a wired remote control unit, facilitating the operator to manage each module in any situation. This remote control unit can also display both internal and external battery level as well as built-in power supplies' working status.

DDS MODULE SOFTWARE INTERFACE

DDS software interface is quite simply. The operators just move the mouse and then he can set up working frequency bands and output power of the modules. Each module can be up to 4 channels output at most.

BIGGEST ADVANTAGE OF APPLICATION

WF-VIP JAM8 can be portable and vehicle mounted, which it's the biggest advantage in the application. Two units of **WF-VIP JAM8** can combine full frequency bands installed in the vehicle, equipped with vehicle mount antennae as required.

BATTERY TECHNICAL PARAMETER

To warranty the safe operation of the equipment, Lithium Iron Phosphate battery has been selected. It is the most secure battery among the global large capacity batteries currently.

EXTERNAL BATTERY SPEC

| ltem | Model | LiFePo-2450 |
|------|---------------------|-------------------------------------|
| 1 | Voltage | 27V |
| 2 | Internal Resistence | 24m Ω |
